github.com/miguelmontiel30 · Portfolio
Tulancingo, Hidalgo, Mexico

Software engineer with eight years of experience, five of them at Walmart Global Tech. I build mobile and web products end to end, from the database and its security rules to the app in people's hands: React Native, Expo, Next.js and Supabase, shipped to the web, iOS and Android from one codebase. I also build the tooling that makes this repeatable, including how AI agents work on my projects.

EXPERIENCE

Walmart Global Tech

Mexico · Hybrid · Dec 2021 – Present

- Software Engineer III — Apr 2026 – Present
- Software Engineer II — Dec 2023 – Apr 2026
- Software Engineer — Dec 2021 – Nov 2023

Xiimbal · Full-stack Developer

Tulancingo, Hgo. · Jan 2019 – Dec 2021

Web applications in JavaScript and PHP, web design, and new features for clients' software.

PROEMIER · Lead Web Developer (internship)

Tulancingo, Hgo. · May 2018 – Aug 2018

Web applications for logistics management; led SALT, the company's fleet administration system.

INDEPENDENT PROJECTS

Residencial Pro — Expo · Supabase · Next.js

Runs gated communities in Mexico: fees with receipts, expenses, visitor QR passes, guard booth, announcements, polls, chats and push notifications. Web/PWA, iOS and Android from one Expo codebase; multi-tenant Supabase with row-level security per role; admin panel and website in Next.js. In production. residencial-pro.expo.app/demo

Foundra — TypeScript · Monorepo · Claude Code

My framework for Expo + Supabase apps: CLI, UI kit, themes, icons, a backend-agnostic data layer, rules for AI agents, a Claude Code plugin and a hub that tracks sessions and decisions across projects. 13 packages published with Changesets.

Wallet AI — Expo · Supabase · AI

Personal finance with AI: expense classification, receipt and odometer reading, installment purchase evaluation.

Rivus — Expo · Claude API

Brain-dump app with an AI-sorted inbox, nested projects and a Pomodoro timer.

Reta — Next.js · Supabase

Amateur football tournaments: venue availability, match setup and live refereeing. reta-web-app-web.vercel.app

EduSync — Next.js · Supabase

School management for students, teachers, staff and parents. edusync-dev.vercel.app

SKILLS

Mobile and web	React, React Native, Expo, Next.js, TypeScript, PWA
Backend and data	Supabase, PostgreSQL, row-level security, Edge Functions, Node.js, GraphQL, PHP
State and quality	TanStack Query, Zustand, Zod, Vitest, ESLint, Sentry
Shipping	EAS Build, Update and Hosting, GitHub Actions, Vercel, Docker
AI	Claude API, Claude Code, agent rules and skills

EDUCATION

B.Eng. in Information Technology and Communication · Universidad Tecnológica de Tulancingo — 2016 – 2020

Updated November 2026
